

### Supplies

- large jingle bells
- wire cutters
- needle-nose pliers
- 16 gauge wire
- decoration of choice

### Instructions

- Cut a length of wire to desired length but approx. 26" to 34"
- With needle nose pliers twist one end of wire into a loop so that bells won't fall off
- Bend wire into a loop
- begin threading bells on loop pack tightly so that the bells are bunched together
- When loop is full, bend end of wire into a hook and fit into the loop you made earlier, then crimp closed.
- Decorate with ribbon or bow or adornment of your choice!
